WORK EXPERIENCE

AIMP Research Group, Universitas Hasanuddin, Makassar — September 2024 – April 2026
Project Assistant

- *Assist in research projects related to Artificial Intelligence*
- *Collaborate with team members to develop research administration, financial document, report, and documentation*

BRIDA Makassar — January 2026 – April 2026
Software Engineering Intern

- *Collaborated in a team to develop an innovation consultation submission system for BRIDA Makassar*
- *Contributed to backend development using Laravel, including database integration*

EDUCATION

Universitas Hasanuddin — August 2023 – Now
Bachelor Degree, Department of Informatics, Faculty of Engineering
IPK : 3.95

SMAN 17 Makassar — Agustus 2020 - 2023
Science Major

ORGANIZATIONAL EXPERIENCE

Event Organizer, Google Developer on Campus Universitas Hasanuddin September 2025 – August 2026

- *Managed organizational finances, including budgeting, income, and expenditures for GDGoC activities*
- *Responsible in fundraising and sales initiatives, from preparation and production review to distribution*
- *Maintained transparent and well-documented financial records to ensure accountability and financial clarity*

Mentor Academy FT-UH 2024 — Juli 2024 – July 2026

- *Guide mentees (first-year student) in academic and personal development within the Faculty of Engineering*
- *Being an event organizer for events held by Faculty of Engineering, Universitas Hasanuddin, such as PKKMB FT-UH, Dies Natalis, and International Conference.*
- *Supported the next Mentor Academy cohort as a tutor throughout their mentoring period*

Member, Secretariat Department, HMIF FT-UH — September 2024 – June 2025

- *Actively contribute to committees for various program and events held by HMIF FT-UH*

COMMITTEE EXPERIENCE

Treasurer, Build with AI 2026 — February – May 2026

- *Represented GDG on Campus Universitas Hasanuddin in coordinating financial planning, sponsorships,*

and ticketing logistics with other university chapters.

- *Managed cash flow and delivered clear financial reports for the event.*

Treasurer, RITECH 2025 July 2024 – September 2025

- *Managed financial transactions and budgeting for the international conference hosted by Department of Informatics, Faculty of Engineering, Universitas Hasanuddin*

Secretary, IC-REST 2025 May – August 2025

- *Recorded meeting notes and event documentation*
- *Handled and ensured the completeness of all administrative requirements throughout the conference, including the conference book and final activity report*

Member of Finance Division, RECURSION 1.0 by HMIF FT-UH November 2024 – April 2025

- *Being a PIC for Sub-Division Merchandise*
- *Prepared merchandise for sale, participants, judges, and committee needs from planning to event execution.*
- *Created and maintained Merchandise Sub-Division's financial records, tracking expenses, revenue, and inventory using Microsoft Excel.*

Treasurer, DIGITS by HMIF FT-UH December 2024 – April 2025

- *Oversaw budget planning and financial reporting for the community service program*

Member of Event Division, IC-REST 2024 August – September 2024

- *Contributed to event conceptualization and developed symbolic elements for the conference*

Fundraising Division Member, SEMINAR CODER INSTITUTE 2024 July – October 2024

- *Supported fundraising initiatives to secure resources for the event.*

Staff of Consumption Division, PKKMB FT-UH 2024 July – August 2024

- *Planned the distribution flow of meals for participants and committee during the event.*
- *Planned food arrangements for the committee throughout the preparation period.*
- *Assisted and guided new students during orientation activities.*
- *Actively served as an event crew to ensure smooth program execution*

ACHIEVEMENTS

Awardee Beasiswa Bakti BCA January – December 2025
Actively contributed to a community empowerment program as the project secretary, managing note records, activity report, and letters.

Business Idea Competiton: Sustainable Innovation with AI
Telkom Regional V, Makassar January 2026
1st Place Winner in Team Poster Competition

PROJECTS

EEG-Based Attention Span Analysis
Special Topics in AI (Elective Course) May - June 2026

- *Analyzed cognitive load across 6 subjects using EEG data from prefrontal channels AF7 and AF8 during video-watching sessions*
- *Computed Theta/Alpha power ratio as Cognitive Load Index and ran statistical tests on left-right hemisphere differences; 4 of 6 subjects showed clear right-hemisphere dominance*
- *Tools: Python, NumPy, pandas, matplotlib*

Hate Speech Classification on Indonesian Twitter
Natural Language Processing (Elective Course) May - June 2026

- *Classified Indonesian hate speech using multi-label classification across 7 categories (individual, group, religion, race, physical, gender, other)*
- *Compared SVM with TF-IDF against Attention-BiLSTM, TextGCN, and IndoBERT to evaluate performance gains of complex architectures over a plain baseline*
- *Tools: Python, PyTorch, PyTorch Geometric, HuggingFace, Sastrawi, scikit-learn*

Speech Emotion Recognition
Special Topics in AI (Elective Course) April 2026

- *Built a speech emotion recognizer on the TESS dataset using MFCC, Chroma, and Mel spectrogram features*
- *Compared SVM baseline against CNN-LSTM; both achieved above 98% accuracy; identified potential speaker-identity leakage as a validity concern*
- *Tools: Python, TensorFlow, Keras, librosa, scikit-learn, SHAP*

APOE ε3 vs ε4 DNA Sequence Analysis
Biomedical Computing (Elective Course) October 2025

- *Performed global pairwise alignment of APOE alleles linked to Alzheimer's disease using Needleman-Wunsch algorithm*
- *Identified 91.96% nucleotide similarity and pinpointed the critical SNP at position 388 (TGC→CGC) responsible for the Cys112Arg substitution*
- *Tools: Python, Biopython, matplotlib*

Road Sign Detection
Intelligent Transport System (Elective Course) September 2025

- *Trained a YOLO-based object detection model for road sign detection using Roboflow for dataset management and annotation*
- *Tools: YOLO, Roboflow*

Spatial Analysis of Crime-Prone Areas in South Sulawesi Based on Online Media Data
Data Mining, Gemastik XVII February – June 2024

- *Led a team to develop a CNN-based NLP model combined with spatial analysis to identify and evaluate criminal activities in South Sulawesi using online media reports*
- *Performed web crawling to gather news articles from multiple sources.*
- *Collected, pre-processed, and developed a CNN model for text classification*

CERTIFICATIONS

English Proficiency Test (EPT) December 2023
Universitas Hasanuddin
Score: 530

EF SET (Standard English Test) October 2026
EF Education First
Score: 73/100 ~ C2 Proficientt (CEFR)

LANGUAGES AND SKILLS

- Language : Bahasa Indonesia (Native), English (Intermediate), Korean (Elementary)
- Technical Skills : Python, Kaggle, Google Colab, GitHub, Roboflow, Laravel, PHP, HTML, CSS, Flutter, Microsoft Office, Google Workspace, Canva, Figma, Administrative and Financial Management
- Soft Skills : Analytical Thinking, Team Collaboration
